

NEW NATION ENTERS THE BRITISH EMPIRE

Today Is the Birthday of "United South Africa," the Latest Great Confederation Under the Union Jack

NEW CABINET ANNOUNCED
General Botha, One-Time Leader of the Boers, Is the Premier—His Message to the People

GENERAL BOTHA
Premier of the New Union of South Africa

Cape Town, May 31.—Today "United South Africa" becomes a fact. The official announcement of the union was made this morning by Lord Gladstone, the first Governor-General of the federation.

"We rejoice that the Union has become an accomplished fact," says General Botha, the first premier, in a message to the Cape "Times." "May we be a united people with hearts united as well as our lands. My prayer is that we may be a peaceful and progressive portion of the Empire."

The Cabinet.

The official announcement of Premier Botha's cabinet is as follows:

Prime Minister and Minister of Agriculture, Botha.

Minister of Internal Affairs, Defence and Railways, Sauer.

Minister of Education, Malan.

Minister of Finance and Mines, Hulse.

Minister of Native Affairs, Burton.

Minister of Lands and Irrigation, Fischer.

Minister of Public Works, Posts and Telegraphs, Graft.

Minister of Trade and Commerce, Brown.

Minister of Justice, Hertog.

Minister without Portfolio, Gubbins.

What Union Means.

The South Africa Act under which the Union takes effect establishes a legislative union under the Crown of Great Britain and Ireland. Whereas North America, Canada, and Australia are federations of states or provinces which retain under a single polity a larger or smaller measure of guarded sovereignty, South Africa, like Great Britain, will be a unitary state.

Three Compromises.

The constitution is based upon three fundamental compromises. By sections 17 and 22 of the draft, Pretoria is designated as "the seat of the government of the Union," Cape Town as "the seat of the Legislature." The compromise with regard to the capital was essential to agreement, but is unessential to well-being. Should the arrangement prove to be inconvenient, it could be reversed by a majority vote of the Legislature. Meanwhile, the clerks of the government departments in Pretoria will bring their papers down to the seaside during the two or three winter months when the Parliament of South Africa holds its session under the august shadow of Table Mountain.

Composition of Government.

The South African Parliament is to be composed of (1) the King; (2) the Senate; and (3) House of Assembly.

The Senate.—The Senate will have forty members, eight nominated by the Governor-General in Council, and eight elected by each province. Four of these are to be chosen for the special knowledge of native affairs. The Senate will be able to reject or amend all bills except money bills, which it may reject, but not amend, in case of disagreement.

In case of disagreement, the Senate will be able to reject or amend all bills except money bills, which it may reject, but not amend, in case of disagreement.

The Assembly.—The Assembly will have one hundred and twenty members, thus: Cape of Good Hope, 31; Orange Free State, 17; Transvaal, 26; and Natal, 17. The qualifications for membership are European descent, five years' residence as a British subject, and qualification as a voter in the province in which he resides.

Provincial Councils for the Cape, the Transvaal, Orange Free State,

WAS IDENTIFIED BY TATTOO MARKS

Man Who Had Fallen Off Train Near Nipigon Was Thomas Johnson of Montreal

Port Arthur, Ont., May 31.—Identified by a wife's description of tattoo marks, the body of the man found a few days ago beside the track at Nipigon has been shown to be that of Thomas Johnson of Montreal. Upon the finding of the body there was nothing on it by which it could be identified, but a letter of enquiry to the town clerk of Nipigon, from Mrs. Johnson in Montreal established his identity. The man's back was broken, his foot crushed and scalp torn off. He is believed to have fallen off a train.

WILL NOT BE OBSERVED.

Ottawa, May 31.—The birthday of King George V., June 3rd, will be a statutory holiday in Canada, although in view of his Majesty's proclamation that he would follow the precedent of King Edward and keep May 24th as the Empire's general holiday in honor of the late Queen Victoria, there will be no general observance of next Friday as a holiday. Being a statutory holiday, however, all banks will be closed, thus making the third holiday in Canada within two weeks.

ROOSEVELT TAKES LOTS OF FREEDOM

Honor Conferred on Him by London Was Accepted Quite Literally

GAVE SOME PLAIN TALK

Said That England Should Have a Strong Government in Egypt or Get Out

London, May 31.—Theodore Roosevelt was today presented with the freedom of the City of London and accepted the honor with a literalism that left him in a freedom of speech that created a sensation in old Gilt Hall.

As the former head of a country that once paid tribute to Great Britain, Roosevelt gave the Motherland some bold advice as to her duty towards her most troublesome independence in Africa.

"It is," he said, "either right or wrong for Great Britain to be in Egypt and establish order there. If it is not right she should get out. Mr. Roosevelt eulogized British rule in Uganda and the Sudan. He also declared that Great Britain had acted wisely in the best government that country had had in 2,500 years, but in certain vital points it had erred. He said that sentimentality might cause more harm than violence and injustice."

"Sentimentality," he added, "is the most broken reed upon which rightness can lean."

AXE IN HER HEAD, SHE STRUCK BACK

Negress Whose Head Had Been Broken Kicked Assailant Down Stairs

FOLLOWED, SAT ON HIM

Chicago Real Estate Agent Was Evicting Tenant by a Very Unusual Process

Chicago, Ill., May 31.—Max Kiarfne, real estate dealer, went to one of his houses today to eject Flora Smith, a negress. Flora refused to move. Kiarfne, it is charged, struck her on the head with a hatchet, and the blade stuck in the woman's scalp. Flora blinked a moment, then, with the hatchet still sticking in her head she kicked Kiarfne down a flight of stairs into the street. She followed, and before he could rise, seated herself on his body and pulled the hatchet from her head as though it were a hairpin. She was beating him with the weapon when the police rescued him. The fight ceased so much excitement that a riot call for police was sounded. Kiarfne was arrested, charged with assault with intent to commit murder. The woman was taken to the hospital, where her condition is reported serious.

WOULD KEEP GAS ENGINE

Commissioner Bouillon Does Not Favor Its Conversion Into a Steam Plant

POWER HOUSE PROBLEMS

Commissioner Looks Forward to Day When City Will Produce Gas for Domestic Use

Commissioner Bouillon has prepared his report on the advisability of turning the present gas producer plant into a steam plant, as suggested by Supt. McNaughton. Commissioner Bouillon thinks that it would be far better to have the present gas producer plant repaired and a new gas producer plant installed by the Alti-Chalmers Company.

The report is as follows: "I have investigated the matter of the gas engine and producer out at the power plant and as a result of my investigation I recommend that the gas engine be repaired and that a contract be entered into with the Alti-Chalmers Company for such repairs and for a new producer plant of their own design, the plant as a whole to be guaranteed by them in accordance with their proposition submitted by Supt. McNaughton with his letter to you under date of the 15th ultimo."

"My above recommendation is based upon a general analysis of the earning power of the gas plant compared to that of such a steam plant as would be obtained by converting the gas plant into a steam plant along the lines suggested by Supt. McNaughton's letter above referred to. This analysis shows that the average saving in the operation of the gas plant for a period of twenty years (which is the term of the debentures issued and which I estimate as the probable life of either plant), would be more than sufficient to cover the cost of a duplicate gas engine which could be installed as soon as the market of reserve in the steam plant, after the gas plant is again in operation, becomes too narrow for a reliable factor of safety."

"Probably the next addition to the power plant, after the gas plant is again in service, would be low pressure turbines to be operated on the exhaust line from the present steam engines. This, I believe, would be the most advantageous addition to the next step with a view to the continuous operation of the steam plant now in service. The installation of low pressure turbines would give the steam plant the benefit of power now generated in the boiler, but partly used by the engines and thence wasted, and this additional power can be turned into output in a considerable proportion through low pressure turbines without much additional cost in maintenance and operation and no additional cost in fuel. There will be ample time, however, for consideration of such additional machinery after the gas plant is again put in service."

"There is, in my judgment, no question as to the earning efficiency of a gas plant as compared to that of a steam plant, and having in mind that the city of Edmonton, at an early date, become a remunerative market for a gas distribution plant for domestic uses, the gas engines in use at the time that such plant is installed for public service can therefore be supplied from the central source at a cost probably somewhat less than the producer supply now outlined; provided that the gas plant is erected and operated by the city in conjunction with the other public utility plant."

"In the reconstruction of the present gas power plant, I advise that the present producer plant be not demolished and destroyed as was contemplated, but that the said producer plant be repaired and put in a view to altering it and increasing its capacity for use in conjunction with the new plant or for source of supply for future gas engine, such work to be undertaken by the power plant organization and to be carried on to the best advantage in conjunction with operation."

"I believe that in following the programme above outlined the best possible results under the existing conditions and following the circumstances of their creating will be obtained. I believe, further, that these results will be satisfactory from the standpoint of the investment as well as from that of future operation."

The report will be discussed at tonight's meeting of the city council.

HERE'S GOOD NEWS, KISSING'S NO HARM

May Be Bad for the Heart, But That's All, Says Harvard Professor

New York, May 27.—"Kissing harmful? Certainly not!"

"These words were spoken by Dr. A. M. Worthington of the Harvard Medical school are not of trifling importance, nor to be regarded as a frivolous pleasantry. They are the soberly enunciated, carefully considered dictum of a dignified college professor on a subject of vital interest to the whole human race. They solve for once and for all the doubts that financial, disagreeable, superstitious cranks, doctors, reformers and their ilk have been instilling in the hearts of men and women concerning the dangers of kissing."

Now at just the right time, when the croaking of the anti-kiss cohorts is beginning to take effect these words of Doctor Worthington's come particularly apropos. They give Cupid a clean bill of health.

Dr. Worthington went on to say: "There is no possible reason in the world, or proof in the world, why when two self-respecting, wholesome persons meet up to lip they cannot break away without upsetting the bacterial balance. Perhaps the only serious danger springing from such a union would affect the heart."

And that should settle the question finally and negatively.

SHOOTING AND RIOT FOLLOWED QUARREL

Special Squad of Constables Sent to Railway Camp at Superior Junction

YOUNG ITALIAN IS DEAD

Camp Cook Is Charged With Shooting—Italians Seek to Revenge Death

Port Arthur, May 31.—Fearing riot and bloodshed among the men employed at the railway construction camp near Superior Junction, Dominion Commissioner of Police Quibble left today for there with four regular constables and eight other men who will be sworn in as special constables.

The trouble is in consequence of a quarrel that started on Sunday and which resulted in the killing of a young Italian laborer, for which Leon Dolbos, cook in camp, now awaits a hearing in the Port Arthur jail. After the shooting of the young Italian, his fellow-constables in the camp became very angry and made an attempt to punish Dolbos, but with the use of a revolver and the assistance of others the latter kept them off until arrested by Constable Hubert. When Hubert was taking Dolbos to the train the Italians threw rocks and gravel through the car windows. It is expected that they will vent their anger upon those who protected Dolbos.

PRINCE RUPERT IS FLOURISHING

E. C. Van Arsdal of the Future City on Pacific Coast in Edmonton

Mr. C. C. Van Arsdal, who is engaged in railway work in Prince Rupert, is a visitor to the city, having registered at the Alberta.

Mr. Van Arsdal says that Prince Rupert is advancing at a surprising rate, and in keeping with its reputation.

In regard to real estate, Mr. Van Arsdal said that in the past the buildings constructed were nearly all frame, but this year some permanent ones were to be put up. Prices in the real estate market have advanced at least fifty per cent. of the original sale price. This, of course, is an average, some lots having sold for ten times their former value.

The fisheries industry is also in a flourishing condition and new packing plants have been started. Railroad construction is also advancing rapidly.

It is a habit of ours to have the best fishes in the city. Kelly & Moore.

BIG BLIZZARD ON LAKE SUPERIOR

High Northeast Winds and Snow Storm Drive All Boats to Shelter

Detroit, Mich., May 31.—A special despatch to the Detroit News from Calumet says that Lake Superior and the surrounding country are in the grip of a fierce blizzard with high northeast winds and a heavy snowstorm. All boats are seeking refuge from the gale. A heavy sea is running along the southern coast and no boats reported within reach of the wireless. Wire and train services are demoralized.

BIG CONFERENCE ON IMMIGRATION

Called by Royal Colonial Institute to Consider Some Important Problems

CANADA IS CRITICISED

Regulations Against Assisted Immigration of Mechanics Condemned by Sir K. Cooke

London, May 31.—A conference convened by the Royal Colonial Institute was opened yesterday with the object of considering the diversion of the stream of British immigration now going outside the British Empire to the Dominions Overseas. Among the subjects submitted by the institute for discussion were the possibility of utilizing labor exchanges for emigration and the suggestion that the government should formulate proposals for submission to the Imperial Conference to be held in 1911.

Lord Brassey moved that the council of the institute be asked to appoint a representative standing committee, to which recommendations of the conference should be referred for consideration, and such further action as may be deemed advisable. The resolution was adopted.

Sir Kinloch Cooke criticized the new regulations issued by Canada with respect to immigrants, which he declared was preventing emigrants already in Canada being joined by members of their families.

"SOIL YOUR HANDS WITH THEIR BLOOD"

Hindu Paper Publishes Bloodthirsty Incitement to Slaughter of English in India

NEW BOMBS INVENTED

New Weapons Are of Coconut Shells and Are Filled With Poisonous Needles

London, May 31.—Coconut shell bombs filled with poisonous needles are the latest weapon used by seditions Bengalis against the English. A copy of what is described as the most outrageous incitement to the murdering of Europeans yet published in the Indian press has just reached London. It is held fully to justify the recent righteous application of the press law in India.

A passage from it reads: "We once more appeal before you to preach our revolutionary doctrines to all for the redemption of our mother from the atrocious hands of the Fesighis (foreigners). You, particularly the English. Your life is not worth even dust or straw if you do not soil your hands with the blood of our oppressors, the foreigner."

"White sheep as can many of these who must kill you by your hands on, whether men, women or children. Arm yourselves with bombs and dispatch these usurpers as soon as possible to Yama's abode. (Yama is the Indian Pluto)."

Then follow directions as to how arms may be procured from arsenals, assurances that British soldiers may be counted upon to offer "only a faint hearted defence," and the suggestion that domestic servants may assist in the work of exterminating the British by poisoning their masters, a method which is described as "smooth patch," in contrast to the use of the "poisoned needle bombs."

ALD. TWIGG'S EYES OPENED

Member of Bristol, England, Council Deeply Impressed With His Trip Through Canada

IMPORTANT SUGGESTION

Mr. Twigg Suggests That Old Country Societies Here Be Used as Information Bureaus

"Amazing!" "Prodigious!" "Charming!" "Delightful!" "Astonishing!"

These are some of the adjectives used by Alderman J. H. Twigg of Bristol, England, in giving his impressions of his trip through Canada on his arrival in Edmonton this morning. And Ald. Twigg is not just an effervescent conversationalist, but a hard-headed business man, the head of one of the largest municipal enterprises in Great Britain, and he talked in a practical way as a man who is here chiefly to look into the opportunities of trade development.

With Arthur Hawkes

Mr. Twigg arrived by the Canadian Northern Railway this morning in company with Mr. Arthur Hawkes, one of Canada's champion boosters. He is chairman of the docks committee of the Bristol city council and in that position has a large part in the control of a municipal enterprise in which thirty millions of dollars have been invested. Bristol has been selected as the English terminal of the Royal line, the Canadian Northern steamers, and Ald. Twigg was, therefore, asked to represent the city on the inaugural trip of the Royal Edward. While here Mr. Twigg is looking into the opportunities of the development of Bristol's trade with Canada. Already there has been a large freight trade from this country to that port, but the corporation wishes to increase it. It also looks for a big development of the passenger trade now that the Royal Line has made that its terminal.

Amazed, Charmed

"I have been simply amazed at the commercial activity and the great possibilities of development I have seen in this country," said Ald. Twigg this morning. "Travelling from Montreal to Edmonton the hundreds of miles of land that I have seen under cultivation has been a revelation to me. I had anticipated big things, but I had never realized how big until I had seen for myself. And the room for still further expansion appears to be prodigious."

"I have been charmed with the kindness and hospitality of all the people I have met. Such an air of freedom and good comradeship is simply delightful."

Praises Board of Trade

One of the first places Ald. Twigg and Mr. Hawkes visited was the Edmonton Board of Trade and the Bristol man was greatly impressed with the exhibition of Alberta products and Edmonton manufactures.

"I am astonished to find such a splendid collection of the produce of the country," said Ald. Twigg. "It would be a good thing if all the principal centres of commercial activity had such a collection. I am surprised, too, to find such interesting specimens of manufactures which seem to show great possibilities for the country in manufacturing as well as raising crops from the land."

An Important Suggestion

One result of Ald. Twigg's visit to Canada is a suggestion made by him which may result in an inexpensive yet important addition to the means of encouraging immigration to this country. In Toronto Ald. Twigg was addressed by the Bristol association. He was also told of the similar association in that city of men from different parts of England. His suggestion is that these Old Country associations should be extended all over the country instead of individual associations in each city; that the names of the members of these associations should be printed and distributed in the districts in England from which the members come. In this way, people in those districts thinking of coming to Canada would learn the names of the members of these associations.

YOUNG GIRL WAS FOULLY MURDERED

Grotesque Find in the Basement of a School House in Louisville, Ky.

WOMAN IS ARRESTED

Her Husband, Who Was Caretaker of the School, Has Been Missing Since January

Louisville, Ky., May 31.—Mrs. Lena Wendling, wife of Jos. Wendling, was arrested at ten o'clock last night, charged with being an accessory to the murder of eight-year-old Alma Kehler, whose dead body was found yesterday in the cellar of St. John's parochial school, five blocks from the home of her parents, Mr. and Mrs. Fred F. Kehler. Wendling was janitor of St. John's Roman Catholic Church, when Alma Kehler disappeared from her home on the morning of December 31, 1909.

The child left home early in the morning to attend mass. An examination of the body today showed that the child had come to death at the hands of a female murderer, who had taken the body into the cellar through a trap door, after wrapping it up in the carpet. Almost every bone in the body had been broken as well as the head. Part of the skull and limbs had been seared as though they had come into contact with fire and there were evidences of quick lime having been applied to the body.

The finding of the body of the little girl closes the first link of the mystery. The second link is to find the murderer. Joseph Wendling, the suspected janitor, is twenty-seven years old. He disappeared from this city on January 14th. His wife is housemaid for Father George Schumann, pastor of St. John's church. The body was wrapped in a piece of carpet which is said to have belonged to the Wendlings. The police have found clothing of the Wendlings which they believe is blood-stained. The body is badly decomposed, but the identification is said to be complete although a microscopic and chemical examination will be made of the clothing.

F. T. CONGDON, M.P., ON NORTH COUNTRY

Says That It Is Rich Beyond the Expectation of the Most Sanguine

"There is in the north a vast area of country, rich beyond the expectations of the most sanguine, and which will eventually become tributary to Edmonton."

In these words Mr. F. T. Congdon, member of Parliament for the Yukon, who is paying his first visit to Edmonton, expressed his faith in this city's future.

Mr. Congdon gave it as his opinion that in the near future the west, and the country to the north now undeveloped, would be richer and more thickly populated than those sections of country which at the present time have the largest share of Canada's wealth and population.

In speaking of the Yukon, Mr. Congdon said that the climate was not so severe as it is generally supposed to be and that agriculture could be carried on very profitably. He pointed out that some of the most fertile spots in northern Siberia and Norway were on the same parallel of latitude. Of course Mr. Congdon does not contend that time will see a campsite for homesteads in the Yukon district, but he maintains that the climate and soil are such as will provide the needs of home consumption.

Mr. Congdon will be the guest of honor at a dinner tonight at the King Edward, when a gathering of erstwhile Yukoners will take place.

FREE NEWS SERVICE

Australian Newspapers Will Benefit by a Novel Scheme

London, May 31.—Robert McMillan, a director of the independent cable service in Australia, yesterday said it was proposed now to supply gratis to Australian papers 150,000 words, of English news. This means destruction of the news service. Reuters's are supplying 150,000 words. The Eastern Telegraph Company is carrying messages to Aden for contract prices. From Aden charges will be twopenny a word to Despatch, from whence the charge will be threepenny a word to Australia. Mr. McMillan understands the Imperial, Indian and Australia governments will be asked for subsidies.

LOWER TARIFF TO ITALY, BELGIUM

Canadian Government Will Extend the Intermediate Tariff to These Two Countries

SAME AS TO THE STATES

The Question of Reciprocal Trade With United States Has Been Shelved Until Fall

Ottawa, May 31.—Hon. W. S. Fielding, minister of finance, and Hon. Wm. Patterson, minister of customs, expect to leave for England on June 10th to take part in the concluding deliberations of the Imperial Royal Commission respecting trade between the West Indies and Canada.

Before their departure it is expected that the pending trade negotiations with Italy and Belgium will be concluded and an order-in-council will be passed extending to these countries the benefits of the Canadian intermediate tariff on a number of items, including in the treaty with France, thus removing any special disabilities under which the countries labor in respect of trade with Canada because of the Franco-Canadian agreement.

In view of the fact that France extended to the United States the same rates as those given Canada under that agreement the government feels free to reduce in the interests of the Canadian consumers the duties on imports from Italy and Belgium which compete with the imports from France.

The reduction of 2½ per cent. pound duty on such items, which the intermediate tariff rate gives will only offset such imports as silk or other commodities which will not compete with any item of home manufacture. The question of a reciprocal trade agreement with the United States has been finally shelved by the cabinet until the fall for reasons already published.

JAPAN IS PUTTING SCREW ON KOREA

Its Hold on the Unfortunate Country is Becoming Stronger Every Day

Seoul, May 31.—Slowly but surely Japan is putting the screw on Korea. Definite annexation plans are denied officially, but nobody cares much for the form of words—the fact of the speedy absorption in Japan cannot be gainsaid.

Lately the insurgents have been active under the pressure, and Japan is preparing to use the agitation as an excuse for free military measures of a drastic kind.

Every day experts are busy under government instructions investigating the resources of the country. There is ample ground for raw cotton in Korea. Sir John McLeavy Brown, ex-financial advisor to Korea, predicts the development of a serious competitor to the American cotton belt, in time. And in the upper reaches of the Nak-Tong are alluvial deposits that are rousing so much cupidity as did similar discoveries in the Transvaal. It is a bad thing for a little country to hold gold mines—when in the grip of a big neighbor.

Plain and striped Taffetas, Milanese Silk, plain and embroidered linen, plain and striped raw silk, the new fancy colored crepe to match your Wash Dress, Dresdens, silk with Dresden borders, cream and black silk Moires, plain black, and black with white stripes for the elderly person. In our big selection we have remembered the children and can please the little ones in prices from 30c to \$2.50. The prices in the Ladies' Sunshades range from \$1.50 up to \$7.50. Let our experienced guide give you to where the variety in styles, quality and price is greatest as we state with confidence that ours is the best showing of similar goods in the city. Same selection in Black Parasols.

SECURED HUSBAND BY KEEPING QUIET

Immigrant Girl Was Married to Escape Deportation From the United States

Boston, Mass., May 31.—Mrs. Alben Zolliager, Jr., who was Miss Mary Graaf until yesterday afternoon, got her husband by her ability to hold her tongue. Miss Graaf was one of five Swiss Mormon converts who arrived on the steamer Seeland yesterday. She came from Berne and on examination by the immigration authorities she refused to answer the questions put to her. Her refusal to talk resulted in her detention by the inspectors. Visions of deportation floated before her eyes, but no information was forthcoming. Then Zolliager, one of the five elders in charge of the flock, came to the rescue. He gave his name and address as Ashton, Idaho. As his wife the young woman could not be refused admission. A consultation was held by the consular and the services of Morris J. Silton, justice of the peace and interpreter in service of the immigration department, were sought. The marriage ceremony was performed by Mr. Silton, and they were allowed to depart.

CANADIAN CLUB OFFICERS.

The following officers were elected for the ensuing year, at the luncheon of the Canadian Club this afternoon: Honorary president, His Honor Lieutenant-Governor Bulyea.

President, Capt. W. A. Griesbach. First vice-president, T. M. Turnbull. Second vice-president, Geo. Harcourt.

KING LIKES THE IDEA

Would Like His Coronation to Come on Empire Day

London, May 31.—It is stated that King George will not be displeased if it is found feasible to hold the coronation on Empire Day. Being keenly interested in anything that helps towards the consolidation of the Empire, the suggestion is not unwelcome or unappreciated by him.

VERY HOT IN 'FRISCO.

San Francisco, May 31.—The torrid weather that prevailed in this locality yesterday caused four prostrations and one death.

ONTARIO FARMER KILLED

Kingston, May 31.—Wm. McLeod, a farmer living at Dufferin, was killed last evening at Barrfield while driving home from the city. He was thrown off his wagon while racing his horses. His neck was broken by the fall.

"There's John Burns. Fancy, Bill, a hundred quid a week man 'e is." "Yus, an' don't drink an' don't smoke. Wat does 'e do wit it?"

STRIKE IN LONDON, ONT.

London, May 31.—A strike of bricklayers may be precipitated here by the masters rejecting the men's claim for higher wages. Their agreement expired on May 1st and the men have asked an increase from 45 cents per hour to 47 cents for the present year and 50 cents for the remaining two years of the new agreement.

ANOTHER NEGRO LYNCHING

New Madrid, Mo., May 31.—A mob took vengeance on a negro for striking a white man by storming the jail, taking the negro to the banks of the Mississippi River and lynching him. "An Unknown" was the label pinned across the breast of the dangling form when found.

NEW LIEUTENANT-GOVERNOR

Hon. Benjamin Rogers to Represent Crown to Prince Edward Island.

Ottawa, May 31.—Hon. Benjamin Rogers of Alberta, Prince Edward Island, has been appointed lieutenant-governor of that province in succession to Hon. D. A. MacKinnon. The new lieutenant-governor was a member of the Peterson and Farquharson provincial governments. He has lived in retirement for the past five years.

SUBMARINE WAS CRUSHED.

Calais, France, May 31.—Inspection by divers of the French submarine

Pulvisse, sunk in a collision with the steamer Pas De Calais, shows that the hull was crushed and the crew of twenty-seven men drowned. The submarine was attached to pontoons with chains and towed towards shore to shallow water, where it may be raised.

The Point of View.

Blox—There goes Skinny Windham. What do you suppose he weighs? Knox—Weighed in his own balance he probably weighs a ton; on ordinary stock scales he would weigh about 110 pounds and in the estimation of his neighbors he might possibly weigh eight ounces.

BIG MOVEMENT FOR CONSCRIPTION

Proposed That National Memorial to Edward VII. be Demand for Universal Military Service

London, May 31.—Intense resentment has been caused in Liberal circles by the revelation that a movement is on foot to exploit the mood of the nation resulting from the death of King Edward in the interests of conscription. The proposal is that the national memorial to King Edward should take the form of a voluntary demand on the part of the people for a universal military service. It is argued by the promoters of the scheme that a universal military service is not conscription and that it would "strengthen and consolidate the Empire as nothing else can, and thus make for righteousness and peace."

The fact is disclosed that before the King died a petition was in circulation praying His Majesty to take a stand in favor of a universal military service. Liberal papers hotly denounce this petition, declaring that if militarists think the quiet mood now prevailing can be utilized to allay the political crisis by forcing peace in the direction of conscription, they will be specially disillusioned. The matter seems likely unless the petition is at once dropped to provoke a national uproar.

Pre-Inventory SALE

THE Acme COMPANY
COR. JASPER & SECOND
Store Hours
OPEN 8:30 A.M. CLOSE 6 P.M.
SATURDAY OPEN TILL 10 P.M.
TELEPHONE EXCHANGE 1121

Pre-Inventory SALE

Sunshades

Now It's \$25 to \$40
Suits for \$14.95 & \$10

That's an achievement we delight in advertising—delight in buying and delight in selling. It does the store a vast amount of good. Demonstrates the strength of our bargain-giving.

Fine leather Hand Bags in colors to match the latest shades in cloth. Made of the best Russian Calf, or real Seal. These purses are of the highest grade in leather goods. Special for Wednesday. Regular \$5.00, for **\$3.95** (First Floor)

Mr. Kyle is to be congratulated on providing an amusing evening's entertainment at the Empire this week and although some of the turns are not up to the usual standard, the performers are amply rewarded by Charles Lindholm and Company in "The Man from Minnesota," Violet Wegner, the English comedienne, and Walno and Georgette.

Charles Lindholm as the man from Minnesota, who has come to New York to marry a servant maid, who has sent him the photograph of her mistress and arranged for the match by letter, is exceedingly amusing and plays the part of a Swedish farmer to perfection.

Violet Wegner, all the way from England, entertained the audience for an enjoyable fifteen minutes, during which she sang some very catchy songs.

Walno and Georgette, who are billed as Eccentric European Dancers, gave a novel exhibition of eccentric dancing, ending up with a most amusing waltz.

Payton and Wilson, the colored "Henroost Inspectors," present the usual ragtime songs, including an "imitation of a colored man singing a coon song."

The Empirescope showed some interesting pictures of Paulhan flying his aeroplane, while Miss Edith Wall rendered "If I Had a World to Give You."

The orchestra, which was rather inclined to "drag" during Miss Wegner's turn, could really do with some additions and improvements, although the overture was rendered excellently.

ASYLUM BUILDING, PONOKA.

Tenders for Ventilation and other Mechanical Equipment.

Sealed and separate tenders addressed to John Stokes, Deputy Minister of Public Works, Edmonton, registered and indorsed tenders for—

(a) Plumbing.
(b) Heating, Ventilation and Mechanical Equipment, will be received up to 12 o'clock noon, Thursday (June 30th, 1910).

Plans and specifications may be seen and forms of tender sent at the Engineer's Office, Department of Public Works, Edmonton, or at the Branch Office of the Department of Public Works, Calgary.

Tenders must be accompanied by an accepted cheque payable at the Bank of Montreal, in the sum of five (\$5) per cent of the tender, as a guarantee that should a tender be accepted, the bidder is prepared to execute the contract within three days after acceptance.

A tender is accepted a market cheque or guarantee bond of a Surety Company doing business in Alberta, to the amount of twenty (20 p.c.) per cent of the tender will be required when the contract is executed.

The cheques of the unsuccessful bidders shall be returned within six days after contract is executed. The right is reserved to reject any or all bids or waive any defects.

JOHN STOKES,
Deputy Minister of Public Works,
Edmonton, June 26th, 1910.

May 28-June 11.

"AMERICAN WOMEN ARE IN SLAVERY"

Emma Goldman, the Anarchist, Throws Spluttering Verbal Bombs at Spokane

OPPOSED TO MARRIAGE

Says It's Slavery and She's Going to Keep at It Until She Stops It

Spokane, Wash., May 31.—Emma Goldman, high priestess of anarchy, is in Spokane.

Emma Goldman is a little woman, somewhat stout, with neat, wavy hair, clear blue eyes, and a mouth sensitive if not of classic lines. She is not pretty, but when her face lights up with the glow and color caused by her enthusiasm, she is attractive. There is a look in her eyes which shows her to be a woman full of spirit and by her conversion it is readily seen she is sincere in her work.

Of Russian birth, there still remaining in her speech the Jewish accent, she resembles the people of that nationality.

Talks from Experience
The Russian Jewess preaches her doctrines by quotations from known and unknown writers and with the appreciation of one who knows all sorts of life and conditions.

A woman who has languished in jails and whose picture is in the "rogues' galleries" of a thousand cities, a woman who lives her life and asks no quarter from those whom she defies and despises, such is Miss Goldman's anarchy.

Not Bomb Thrower
She declares she does not advocate violence and when asked if she ever had any dealings with a "bomb-throwing gang," a broad smile came to her face and she said: "No man has the right to prescribe for another. Every man should work out his own salvation. No one has a right to punish another. No one will injure another in the time when laws and institutions being removed shall cease to distort the mind and spirit. Religion stunts the soul, whatever that may be."

Says Marriage Means Slavery
"Marriage," said Miss Goldman, "Of course, I do not believe in marriage. The moment a woman announces she is married she becomes a slave."

"The chief interest in my work is woman and woman advancement, but it is not woman suffrage that is helping woman onward. Woman will be educated some day. American women are really the most enslaved of creatures when it comes to an understanding of sex problems."

"This vote is being given because to quiet real demands of nature. To distract their minds from the real problems of their sex. The vote gives woman nothing in the way of advancement. It is the spiritual awakening which counts and which will not come through the ballot box."

AN UNUSUAL FEAST
(By J. W. Foley in the Chicago Tribune.)

I saw a sight the other night, A sight both rare and fine, Unusual and novel quite. When I went out to dine:

It was no miracle or myth, A moment seen, then gone, I saw I saw potatoes with Their smoking jackets on.

I was surprised, as you may know, To see them thus dressed up, For seldom will you find them so. When you would dine or sup;

Their smoking jackets all wore, When they came from the pot, But I soon learned the reason for It: They were piping-hot.

And then I saw another sight Ere I was done and gone, I saw a pudding served that night With its new suit on;

And saw the salad dressed in glass, And rum punch in a tress, A thing, as you'll admit, that's rare And seldom comes to pass.

I saw the rum punch in a glass As plain as could be, but It was unbarred; it came to pass It was the glass was cut;

And then, as true as you are born, With wonder I was dumb, To find the silk upon the corn Was so un-cumbersome!

But there came wonders, more and more I heard tomatoes whoop, And never in my life before I've seen a noise stir soup!

The thunder rolled, hoarse, reddish sound; We waited all in vain, For when we came to dine, we found It started in tureen!

"AN OLD, OLD SWINDLE"

So Old That It Was Almost New and Almost Worked

Chicago, May 31.—In the arrest of F. A. Starkloff and George W. Post in Philadelphia, and their indictment by the federal grand jury in Chicago, government officials declare they have "nipped in the bud" a billion-dollar "green goods" swindle—the first that has been uncovered in Chicago in more than a decade.

According to the police, Starkloff smuggled nearly a thousand letters from the New Southern, April 28, to "hackers" with a proposition to furnish each with enough undetectable "spurious" government notes in \$1, \$2, \$5 and \$10 denominations to make a fortune for the purchaser.

The "spurious" notes, it was represented, were not counterfeit, but made with plates stolen from the United States treasury. Each prospective customer was directed to "wire A. B. Cline, Attlee, Mich., for full details of interest."

COMMISSION FOR TWO COUNTRIES

It Will Regulate Railway Rates Between Canada and the United States

MABEE TO BE A MEMBER

New Board, Suggested by Hon. George P. Graham, Will Be Organized Shortly

Ottawa, May 31.—The proposed international tribunal for the control of railway rates between Canada and the United States will be established shortly. Judge Mabey, chairman of the Canadian Board of Railway Commissioners, has already been named as the Canadian member of the tribunal. The United States representative will probably be a member of the Interstate Commerce Commission. The tribunal, which is being established on the initiative of the Minister of Railways, Hon. G. P. Graham, will deal with such matters as through rates on international rail traffic with a view to securing as far as possible some uniformity of rules and rates for shippers. The Canadian Railway Board and the Interstate Commerce Commission are in no medium of securing any joint action in respect to continuity of control of railway traffic passing across the border. The new tribunal will enable the Canadian and American boards to bring to an end the present hiatus in governmental control of railway companies.

HARD THINGS SAID OF ASSESSMENT

Appeals Are Now All Registered and Will Be Heard on Thursday

All kinds of reasons are filed by those who have appealed against their assessment for this year. The time for making appeals is not up, and the Court of Appeals will sit on June 2nd at eight o'clock. The list is much smaller than last year.

The Hudson's Bay Company and the C.P.R. are the two companies who have appeals, and in the discussion which followed re-declared that scores of people were annually being "railroaded" into insane asylums under the state law which permits a person to be put away on the statement of two doctors that the person is of unsound mind.

Dr. Woodbury said often persons were "put away," even when the certifying doctors were not licensed to practice in Pennsylvania and that such doctors often prejudiced themselves. He said that the present rate of increase Pennsylvania would soon strip New York in the number of insane persons in state institutions. New York has 20,000 such, while Pennsylvania, which in 1900 had about 10,000, this year has over 15,000. This does not include the insane in county and municipal institutions.

President H. V. Orth of Harrisburg made a similar address. The figures created a sensation. The matter will be put up to the legislature which meets next January. A demand will be made that three doctors instead of two be required to report on a person's mental soundness, and that such person be then committed only by a court order. Under the present law a court order is not required.

His Bad Break
The tonsorial artist had just finished amputating the whiskers of the victim in the chair.

"Your hair needs cutting badly, sir," he said, using the manner of his kind. "Nothing doing in that line today," rejoined the victim. "But if the time ever comes when I want it cut that way, I'll give you the job."

YOUNG BOY SUICIDES
Chicago, May 31.—Glenn Lawrence, a 15-year-old Green Bay boy, shot Frank D. Lawrence, a lumberman, leaped into the Fox river at Geneva, Ill., yesterday, and ended his life.

Playmates had ridiculed him because he stammered, and this is the reason given for the deed. He left a note to his mother, telling her of his intention.

The boy's clothing was found on the river bank. A searching party is dragging the river for the body.

WANT GOVERNMENT GRAIN ELEVATORS

United Farmers' Association of Okotoks Pass Resolution in Favor of the Plan

STIRRING SPEECHES MADE

Resolution Recommended That Elevators Be Controlled by Independent Commission

Okotoks, May 31.—At a meeting of the United Farmers' Association here addresses were given by Geo. Hooley, M.P.P., and Thomas L. Swift, of the Grain Growers' Grain Company. The latter gentleman spoke at some length on the grading of grain, in and out of the terminal elevators. He quoted the Manitoba Grain Act, which said that all grain carrying a certificate with dockage should be cleaned before being stored, and that the mixing of the grain was prohibited. "Notwithstanding this," said Mr. Swift, "according to C. C. Castle's report, the Empire and Port Arthur elevators had graded out of their elevators 666,884 bushels more No. 1 northern than they had taken in."

"This was No. 1 northern wheat grown while you wait," said the speaker, and this was received with laughter.

"This is the wheat which reaches the old country markets and has to come against the wheat from other countries. It has been proven to contain as much as four per cent. dockage (dirt), and the producer has to pay any penalty for this dockage which the inspector inflicts. A staff of seventy men is employed to see that the grading is done properly in the elevators, yet they see nothing wrong."

He told of the case where the privately owned elevators were fined and said that it was tried behind closed doors. This was not eight. The case had been tried on April 22, but the report did not appear in the papers till the 27th. Publicity was dreaded by these people.

After Mr. Swift had finished, Geo. Hooley was called upon and he made a few remarks. He said a real percentage of the capital invested in terminal elevators came from across the line. He also explained the Initiative and the Referendum and said that wherever it had been tried it had worked admirably.

A resolution was passed favoring government ownership of elevators under control of an independent commission.

ARE RAILROADED INTO THE ASYLUMS
Starting Declaration by an Official of a Pennsylvania Asylum for the Insane

Pittsburg, Pa., May 31.—At a meeting of the association of trustees and superintendents of all state and incorporated hospitals for the insane of Pennsylvania, Secretary Frank Woodbury, of Philadelphia, made a sensational address and in the discussion which followed re-declared that scores of people were annually being "railroaded" into insane asylums under the state law which permits a person to be put away on the statement of two doctors that the person is of unsound mind.

Dr. Woodbury said often persons were "put away," even when the certifying doctors were not licensed to practice in Pennsylvania and that such doctors often prejudiced themselves. He said that the present rate of increase Pennsylvania would soon strip New York in the number of insane persons in state institutions. New York has 20,000 such, while Pennsylvania, which in 1900 had about 10,000, this year has over 15,000. This does not include the insane in county and municipal institutions.

President H. V. Orth of Harrisburg made a similar address. The figures created a sensation. The matter will be put up to the legislature which meets next January. A demand will be made that three doctors instead of two be required to report on a person's mental soundness, and that such person be then committed only by a court order. Under the present law a court order is not required.

His Bad Break
The tonsorial artist had just finished amputating the whiskers of the victim in the chair.

Playmates had ridiculed him because he stammered, and this is the reason given for the deed. He left a note to his mother, telling her of his intention.

The boy's clothing was found on the river bank. A searching party is dragging the river for the body.

WAS A CLEVER THIEF

Eighteen year old Boy Dressed as a Woman

Spokane, Wash., May 31.—Lester Day, an eighteen-year-old boy, who gained prominence some time ago by being detected at the Nattatorium dancing position posing as a girl, was arrested yesterday by Detective Alex. Macdonald as the perpetrator of a number of burglaries the last two weeks, which the police heretofore believed to be the work of a woman named "Raffles." He will be turned over to the juvenile court.

Day admitted the robbery of the department store of Miller, Mower & Flynn, Riverside avenue and Monroe street, two weeks ago of more than \$300 worth of woman's apparel. The property was identified by the proprietors of the store. Day's parents live at Kettle Falls, Wash. In his room complete outfits of clothing for impersonation purposes were found, which he said had been given him by a San Francisco society woman.

ASSEMBLY PRAISED CHURCH IN CANADA

General Assembly of the Presbyterian Church in Scotland Discusses Needs of W. Canada

Edinburgh, May 31.—Western Canada loomed large at the meeting yesterday of the General Assembly of the church of Scotland. Dr. Norman MacLeod claimed that no finer work was being done than that of the Presbyterian church in the Canadian West. He appealed for further help from the church of Scotland.

HON. FRANK OLIVER IS IN EDMONTON

Says He Cannot See How Canada Can Discriminate Against the Negro

IS GOING TO THE YUKON

Minister Holds Out No Hope of Railways to Peace River This Year

Hon. Frank Oliver, Minister of the Interior, arrived in the city last night from Ottawa. He expects to be here only a few days, as before the end of the week he will be off on a three-thousand mile trip to the north country. Dawson City, Yukon, is his objective point.

Traveling under the guidance of Hudson's Bay Company's "voyageurs," Mr. Oliver will leave Athabasca Landing, go down the Athabasca to Fort Smith, traverse the ninety-three miles of rapids between Grand Rapids and Fort McMurray in a canoe, from there by steamer to Fort Smith and then on to Fort McPherson on the Mackenzie.

From here Mr. Oliver will be met by a detachment of Mounted Police, and under their care will be taken through the divide and on to Dawson City.

It is an interesting trip, and Mr. Oliver was far more eager to talk of it than he was of politics, either here or at Ottawa. In an interview Mr. Oliver stated that he could hold out no hope of any railway development in the Peace River country this year. Although subsidies had been granted to various companies to build to that country, he did not think that much would be done this year owing to the fact that both the G.T.P. and the C.N.R. are straining every effort to complete their main lines through to the coast.

In speaking of the question of negro immigration, Mr. Oliver stated that representations had been made to him but that as far as he could see, neither he nor any one else could do anything owing to the fact that the negroes are fully naturalized American citizens, have the required amount of money, and in every other way comply with all the immigration laws. He thought it would be a very difficult matter to discriminate against them.

IF TOO PRESUMPTUOUS
Heard Walter (dignified and pompous)—Have you heard, sir?

Despairing Patron—Yes, I ordered a porterhouse steak half an hour ago and I wish to apologize for my rudeness. With your permission, I will withdraw it as an order, and renew it as a suggestion.—Chicago Tribune.

Doing It Easy
Officer (at manoeuvres, to umpire staff)—"Hi, you there! You mustn't cross here! Can't you see the bridge? The bridge is supposed to be destroyed."

Subaltern (cheerfully)—"Oh, that's all right! We're supposed to be swimming across."—Punch.

His Error
The young man who loved the daughter of the widow had called to get the mother's consent to lead the fair girl to the altar, but he blundered in a very nasty way.

"I have come, madam," he began in a voice that was agitated and beseeching, to ask you for the blessed privilege of working for your dear daughter, taking care of her, giving her a home, and—

"He got no further. The widow, with miserable eagerness, threw herself into his arms. "I gladly give you the privilege," she cried. "You don't know how I have longed and longed for a model man like you to be my darling daughter's father."

Willing to Learn
"Why should the spirit of mortal be proud?" quoted the impassioned orator.

Then he paused a moment to let it take effect.

"Well," spoke up a half inebriated man in the audience. "I'll be the goat. Why should it?"

INERTIA OF THE NERVES
The researches and experiments of a French scientist have led him to the conclusion that the cerebral system is incapable of receiving more than an average of ten separate impressions per second. After each excitation of the nerves a period of inertia follows, lasting about one-tenth of a second, and during this period a new impression cannot be made. According to the investigations of this scientist, a person cannot make more than ten, or at least a dozen separate voluntary movements of any kind in a second, although the muscles, independently of the will, are capable of making as many as thirty or forty.

JOHN LANDERS ILL

Well Known C. P. R. Conductor is Not Expected to Recover

Winnipeg, Man., May 31.—John Landers, one of the best known C. P. R. conductors in western Canada, who has been running out of Winnipeg for the last twenty-five years, is lying seriously ill at Hot Springs, Ark., where he sought for the benefit of his health. He is not expected to recover.

YOUNG MAN FACES SERIOUS CHARGES

Young Girl Tells Toronto Magistrate a Remarkable Story of Hard Treatment

Toronto, May 31.—Roy Robson, commercial traveller, was committed for trial by Magistrate Denison yesterday on a charge of abduction, sixteen-year-old Margaret Stewart of Comber, Ont. The young woman said that after she had disclosed her condition to the defendant's parents they took her to Fort Huron and afterwards brought her to the authorities in Detroit, sending her there with one dollar in her pocket. Upon reaching there she went to the Salvation Army where she was cared for. After learning the circumstances of the case they reported the matter to the authorities and she was deported to Canada. Robson was admitted to bail in one surety of \$500.

TORONTO MEN CONVICTED.
Jury Decides Estates, Limited, Was

Toronto, May 31.—After a four days' trial, a jury in the sessions court brought in a verdict finding Athol G. Robertson, Joseph Garfield and Milton Delhomme guilty of six different counts of conspiracy to defraud the people through their re-creation of the Canadian Estates, Limited. The jury added a recommendation for mercy in the case of Robertson. His Honor Judge Winchester made no comment on the recommendation and the Crown Attorney declined to allow any of the men to be released on bail.

"OUT OF SIGHT, OUT OF—" "Yes," said the bushy-bearded commercial traveller, "I was once out of sight of my land on the Atlantic for twenty-one days."

"On the Pacific Ocean I didn't see land for twenty-nine days," capped a bald-headed ditto.

"Well," chimed in a fateseeto voice, "I once crossed the Thames in a skiff, and was out of sight of land before I reached the other side!"

"Come—come, there are lies and lies!" chimed in the first speaker. "And I draw the line at that. I'll give you half a dollar if you can prove it!"

"Then you may as well give me half a dollar," piped Com-Trap, No. 3. "The skiff turned over and I sank twice!"

CO-OPERATION IN ALBERTA AND ELSEWHERE

For several months past the Saturday Evening Post has been publishing brief sketches of various co-operative movements in the United States. The issue of May 28, 1910, contains an account of the co-operative efforts of the producers of the important boarding-house staples mainly prunes and beans. In this article are to be found the following sentences which are very much to the point in Alberta today:

"It is astonishing to see how much co-operation there is in the air, and how little in practice."

"Nearly everybody seems to be in favor of co-operation as a general proposition, but when it comes to pledging patronage or putting up a dollar, difficulties arise."

All of the foregoing refer to the growers of prunes and beans in California, but they read as if taken from an article on co-operative effort in Alberta at the present time among the producers of the twin brother of beans, namely, pork.

Outsiders who attended the last U. A. convention and heard the discussion on the question of pledging patronage to the proposed pork packing plant, about which so much has

been written, and which for a long time seemed to overshadow all other subjects, were impressed with the anxiety of many members to secure whatever benefits were to be derived from such a concern, yet absolutely refused to assume any responsibility in order to insure its success, or in the language of the writer in the "Post": "Everybody seemed to be in favor of it as a general proposition, but when it came to pledging patronage or putting up a dollar, difficulties arose."

For some time past speakers have been canvassing the province with a view to securing the specified patronage, but from the meagre reports obtained regarding their success, the prospects are none too flattering. In other words there has been a good deal of co-operative pork packing in the air, but comparatively little promise of it in practice.

However, co-operative enterprises along other lines are being established in different parts of the province and upon their success or failure will depend to a great degree the success or failure of this larger and more comprehensive undertaking. We refer to the efforts at co-operative marketing at Red Deer and Pincher Creek.

Great care, industry and patience are necessary on the part of those in

charge of these enterprises to make them succeed and it is safe to say that few realize the extent to which success means preparation for greater undertakings along the same lines and a possible revolution in the marketing of farm crops to the great benefit of the farmers as a whole.

The farmers of Alberta can well afford to keep their eyes on Red Deer and avail themselves of every opportunity to assist in making co-operative marketing a success. Mr. Bower and his associates there are deserving of great credit for what has been accomplished thus far, and every assistance should be given them in order that more may be done in the future.

The Provincial Exhibition to be held at Calgary on June 30th to July 21st is going to excel any previous effort made in Canada west of Winnipeg. Some of the prominent features will be: A mechanical milking machine demonstration with instructive lectures; an acre yield competition in which the grain grown on an acre must be shown, and for which practically \$1,000 is offered in prizes. This feature promises to be a great suc-

cess: an exhibit showing the different grades of commercial steers; an exhibit illustrating the process of grading up by the use of pure-bred stallion; actual forestry demonstration by the Dominion tree planting division on a large plot of the grounds; an art and china loan exhibit composed of the best pictures and china from the homes of residents of Western Canada. Many families have articles of great value brought from their former homes, and you will be surprised at the magnificence of the display. If you have any article of merit that you are willing to exhibit the manager of the exhibition will appreciate it if you will let him know.

All freight rates are refunded on exhibits originating in Alberta.

The best music and attractions that can be secured including the famous Navasars Ladies' Band.

Entries for the exhibition will close on June 18th at Calgary.

Make up a party of your friends and enjoy a grand holiday.

STANDING GRAIN COMPETITIONS.

The competitions in standing fields of seed grain conducted by the agricultural societies of Alberta, have as some of the objects:

1. To stimulate a greater interest in the growing of first class seed grain.

2. To encourage the practice of growing seed for next year's crop separate from the main crop, using only the cleanest and best prepared land, allowing it to thoroughly ripen and threshing and storing separately.

3. To obtain pure grain, i.e. free from other varieties, the presence of which can best be detected when the grain is growing.

4. To encourage the use of seed from heavy yielding strains.

5. To promote the growing of seed from clean, vigorous crops of uniform stand and with bright, stiff straw.

6. To encourage careful, intelligent farming and the production of grain free from weed seeds.

The rules governing the competitions are as follows:

1. Competitions shall be confined to fields of wheat or oats, or both, provided separate price lists are offered for each.

2. Prizes to the amount of not less than \$10 shall be offered.

3. Fields entered for competition shall consist of ten acres in a block, and shall be situated in the district tributary to the headquarters of the agricultural society with which entry is made.

4. Each competitor shall enter with one Agricultural Society only and must be a member of that society.

5. Each competitor shall be allowed to make one entry only in each class.

6. Each competitor shall pay an entry fee of \$2.00 to the secretary when making entry.

7. The awards will be made by judges supplied by the Seed Branch, Dominion Department of Agriculture, and according to the following or a similar scale of points:

8. Entries shall be made on or before July 16th to the secretary of the agricultural society.

9. The secretary shall mail to the

representative of the Seed Branch, Calgary, not later than July 20th, a statement showing all entries made, and giving the particulars contained therein.

10. The first or any prize need not be awarded unless in the opinion of the judge the exhibit is worthy.

Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

DOMINION PARK

Cornering Edmonton City Limits

ON ALBERTA AVENUE, WEST

1. There are no hills or coulees to get to this beautiful property.
2. The St. Albert electric cars will pass close by.
3. Being just outside the city limits, no city taxes.
4. Close to the West End City Park.

5. Edmonton's best property is like every other city of note—going west.

6. Dominion Park is just far enough from the Grand Trunk and C.P.R. Shops to be clear of dust, noise and smoke.

7. The vendors are negotiating to have the telephone to the property.

8. The main road to Killarney, the big lake coming pleasure resort for boating, bathing, shooting and fishing.

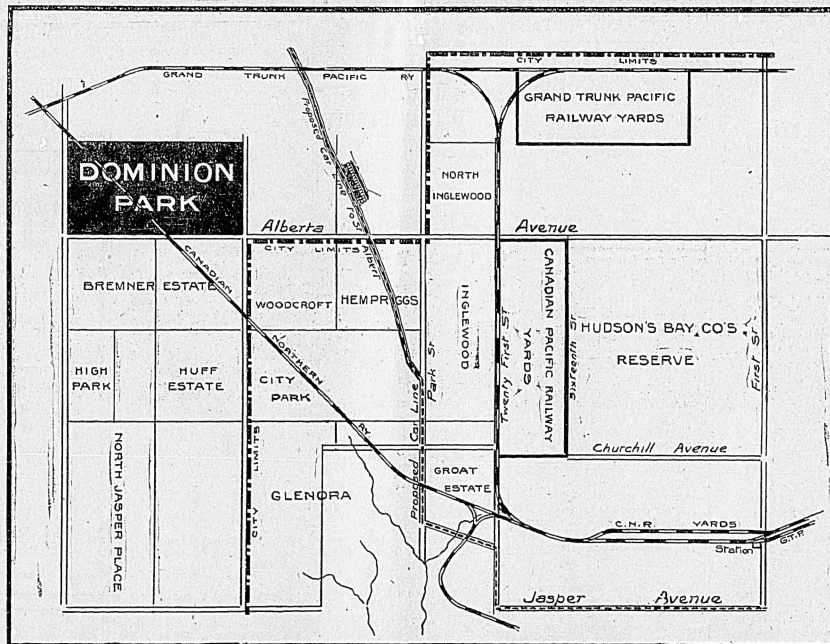

9. A new school just built close to the property.

PRICE:

\$175 to \$300

Per Acre

Terms: One-third Cash; balance 6, 12 and 18 months, at 6 per cent. interest.

10. Get in at the acreage prices and save paying for single lots. Money is made before development, not after.

11. No tempting offers made to purchasers, as the property does not require any booming.

12. Get your thinking cap on. Come and see us. We will soon convince you Dominion Park is the best buying proposition you have seen in a long time.

13. The coming industrial centre of West Edmonton.

14. The proposed location of the Canadian Northern Railway west end station.

15. The spot where the investor will make 300 per cent on his investment. Just watch development for the reason why.

PRICES:

\$175 to \$300

Per Acre

Terms: One-third Cash; balance 6, 12 and 18 months at 6 per cent. interest.

Automobiles will leave our office at 2 and 4 p.m. each day to show intending purchasers this property

THE WHEAT SITUATION

Abstract

The bearish feeling in the wheat markets mentioned in our last review, depend during the past week to a very depressed condition of the dollar, and as one day after another passed, there has been recorded a continuous sharp decline in prices. Probably every market in the world after day European cables

er, Liverpool having lost equal
to 4½¢ per bushel on the w
the American markets the natu
tending tendency has been aggr
ed by very aggressive short sel
future delivery on the part
ny traders who have taken the
e of the market in speculative t
These traders have raided
markets most unmercifully, and t
has forced prices probab
ch lower than they would

in so short a time at least. They have perverted the market machinery of the Grain Exchanges to put money in their own pockets, regardless of other interests but that of accumulating money for themselves. To paralyze this action in the near future is called adjusting prices to conditions. Our idea of it is that it is very like the action of a band of very footpads who, at some risk to themselves, force the rest of the world

ough the agency of organized
for general utility and adv
e, to stand and be robbed.
te this because we do not c
that there is at the present t
world's situation in breadst
uch calls for such a drastic de
prices of wheat as has been fo
there is no doubt that supplie
heat and flour visible and inv
ample to meet all the requ
ats for the present and for s
to come. But none of these

to come. But none of these 25 are more than ordinary. What is the present there is much talk of trade and small demand, the export of wheat in the shape of different products is going on today at a probably considerably raised rate than ever before. It is a matter of astonishment in the country of 1909 how the mills have kept going at full capacity ever week as never was known before. The world in its millions

The world in its timing of the grain trade is feeling today the effects of that over-busy time of year. And the out-turn of a large harvest of wheat, with large supplies in most other countries, combined with optimistic prospects for the crop in the northern hemisphere, has prompted the continuation of demand for actual wheat and flour. If the crops in the northern hemisphere were already secured in as large a yield as can be forecasted at

present prices might be fairly well interested. But the crops are not yet, far less secured, and in the fall the sources of observation are few, the information, and the ability and the experience of expert professional estimators of present condition of growth, crops, and probable ultimate resources is impossible to determine completely within many millions of bushels, what the yields will aggregate, and therefore, there is not yet any

There is no definite reason why the level of prices should be greatly lowered at the present time. In our last week's review we stated that rain over the wheat country of North America had come just in time to prevent markets taking a bullish turn during the past week there have been no showers, but these have taken their place to settled-looking weather and it continues cool for the rest of the year, so that for all of the

...ing up of the season, vegetation was not any further advanced than it is in an ordinary year. On turning our attention to the amount of moisture it has fallen over the spring we find that in the last twelve days we were rather disappointed to find it very small on the average. Some districts had fair rains, and in some districts there were nice falls of snow; many others had only moderate rains, and others practically none. Our meteorological reports

estimate the average precipitation was less than one inch of water over the whole country, and this is all the available moisture since August 1. The subsoil contained the usual reserve of moisture, the recent rainfall would have probably been all that would be needed at present, but the ground underneath requires copious supplies from above in order that vegetation may stand summer drought when it comes and benefit by it.

surface all is green and fine. After recent showers, but it is evident that not growth that is seen. The northwest may still develop a fur in which case there would be to be an advance in America with its influence on world prices

THE WEATHER.

Forecast—All West: Fair and warmer today and on Wednesday. Light showers of rain have occurred in Manitoba and in Northern Saskatchewan, but the weather generally throughout the Prairie Provinces has been fair and moderately warm.

About Town

Three drunks, Eugene Adams, Alex Micheluk and Alex Benson faced the police magistrate this morning and were assessed \$4 and \$5 costs, or ten days.

In its special number, issued in connection with the Horse Show in that city, Winnipeg Town Topics publishes cuts of the horses of two former Edmontonians, L. M. McCarthy's polo pony "Winstone," and Campbell Strang's hunter "Katboosh."

Mr. Vernon Barford's pupils give their usual monthly piano recital this evening in All Saints' School Room, commencing at half-past eight. They will be assisted by Mr. Howard Stutchbury, who will sing two numbers. These recitals are open to all interested in music.

There will be a league football match tomorrow evening, Wednesday, at the Second street grounds between the Hibernians and Y.M.C.A. The "Hibernians" line-up will be: Goal, King; backs, Martin and Matthews; half-backs, Speakman, McNeil and Wallace; forwards, Armstrong, McCartney, Morgan, Heffernan and Houston. Reserves, Sutton and Dooley. Game called at seven o'clock.

Premier Sifton is now in possession of the offices at the buildings, lately occupied by Mr. Rutherford. From Sifton moved in yesterday, and will be present in the buildings every day from now on during the regular office hours. No official hint of what the personnel of the new cabinet will be, has yet been given out.

Tomorrow, William King, who is serving a term of imprisonment in the penitentiary for horse-stealing, will face the far more serious charge of murdering a man named Hinghal near Millie on March 10th, 1927. King, it is said, went to Minnesota to secure some property there belonging to the dead man, and on account of this visit Mr. T. J. Miller of the T. J. Miller insurance and real estate agency of Berniemi, near St. Paul, is in the city, and will be called as a witness.

STOCK SALE IN EDMONTON.
A meeting of the Live Stock Association was held in the Exhibition Association rooms last night, when ways and means were discussed as to the best manner in which to procure horse, cattle, swine and sheep breeding in this district. It was decided that a sale of stock be held next spring in the exhibition grounds. It is proposed by the association to make Edmonton the headquarters and depot for live stock in the province and with this end in view stock yards may be established there.

At present packing is somewhat of an industry in this city and about two carloads of dressed meats are exported daily. However, this industry will be greatly augmented if the plans of the association meet with success.

Mr. A. A. G. Harrison is secretary of the association.

MONTHLY STATISTICS

Business in Edmonton has been brisk for the past month and activity is increasing daily. Building permits to the amount of \$220,000 have been issued for May this year, but show a decrease in comparison with the same month last year, when they amounted to \$368,000. For April, 1930, permits for \$252,196 were issued.

At the last office the statistics show a large increase—388 homesteads being filed compared with 301 for May, 1929. The statistics in most cases are not yet completed and will not be issued until the first of the month.

Mrs. Arthur Sifton, of Calgary, and her daughter, Mrs. Clark Denton, are staying at the Glencoe Lodge. They will probably stay in town for a month or two—Vancouver Province.

INDUSTRIAL SITES IN LARGE NUMBERS

Commissioners Consider a Long List, But Have Not Decided on Any Action

The city commissioners are now faced with the problem of where, and for how much they are going to buy industrial sites. At the meeting of the commissioners yesterday afternoon, a long list of properties available was considered. The prices asked range all the way from \$500 to \$2,000 an acre, and practically all of them are situated far beyond the present water, light and sewer facilities.

Commissioner Bouillon pointed out that if the city purchased the land now, they would be able to control the real estate market in the future, and in this way determine in a large measure what the various sections of the city should be. The commissioners were united in the belief that some of the properties would make a good investment for the city, but no action was taken yesterday.

The tender for the creation of the exhibition grandstand was awarded to W. R. Killips & Co. at \$20,000. The superintendent of the electric light department asked permission to discuss the question of cheap rates for electric signs. He will be heard next Wednesday afternoon. An application for a permit was granted by H. S. Scott was filed. A permit was granted by H. S. Scott was filed. A permit was granted by H. S. Scott was filed.

FREIGHT WRECKED.

Fourteen Cars Piled Up Seven Miles South of Strathcona.

A freight wreck occurred on the C.P.R. this morning before 8.30, about seven miles down the line. No body, as far as can be learned, was injured, but there was considerable damage to rolling stock, about fourteen cars being piled up. The cause of the wreck is unknown, but probably a broken rail or something of that nature was responsible. The 3.30 express this afternoon will go down as far as the wreck and will there transfer passengers to the north-bound train, which will return to Calgary.

TOFIELD BYLAWS.

Tofield, May 31.—Tofield on Saturday unanimously endorsed six debenture bylaws. The bylaws were as follows: Waterworks, \$4,000 for preliminary work; sidewalks, \$2,000; exhibition grounds, \$750 for 30 acres; market site, \$465; nuisance ground, \$365. The first two were for twenty years and bear 5½ per cent interest. The last three are for ten years and bear 6 per cent. The bylaws have already been disposed of by May and James, Regina, all realizing par.

D. D. MANN COMING WEST.

Toronto, Ont., May 31.—Dan Mann, accompanied by Lieut.-Col. J. B. MacLean and other prominent business men of Toronto, has left for a three weeks' trip to the coast in Mann's private car. They will visit Edmonton, Prince Rupert, Vancouver, and Victoria, and other important places along the line.

MEDICAL HEALTH OFFICER REPLIES

Shows That the Critics of His Department Was on the Wrong Trail

The Editor, Daily Capital.—In a recent issue of your paper appears a letter from one signing himself "Consumer," who is apparently badly confused on the dairy controversy. He has assumed that the medical association which has been the prime mover in a laudable endeavor to improve the milk supply, is the Health Department of the city. The Health Department has had nothing whatever to do with the controversy except to call attention to certain erroneous statements, said to emanate from the health officer which in absolute fairness to the dairymen themselves were corrected.

The samples collected by the Health Department at the request of the medical association were not selected as suggested, but were taken at random, paid for, and were a fair sample of the milk carried by the wagons from which they were obtained.

That there is a syndicate seeking to obtain control of the city's milk supply is a feature of "Consumer's" imagination. Regarding other matters to which "Consumer" calls attention, he can, if he chooses to disclose his identity, consult the files of the health officer, in which case he will learn that these matters have been frequently brought to the attention of the commissioners and council during the last two years and that steps have already been taken and are being taken to remedy the existing evils he refers to at 35 early date as present circumstances will permit.

With your permission, Mr. Editor, I would suggest that such letters, throwing out insinuations and casting unjust reflections on a city department should be withheld from publication until the writer has the moral courage to subscribe his own name.

Yours truly,
MEDICAL HEALTH OFFICER.

STRANGE TRAGEDY AT BROWNLEE, SASK.

Five-Year-Old Boy Strangled, it is Said, by His Grandfather

MAN ATTEMPTS SUICIDE

No Motive Can Be Assigned for the Man's Deed, Which Was Deliberate

Moose Jaw, May 31.—Details of a terrible tragedy at Brownlee on the Outlook branch of the C.P.R. reached here today. Moses Smith, living with his married son, six miles south of Brownlee, it is said, strangled his five-year-old grandson last night and then tried to suicide by cutting his throat with a razor. He succeeded in inflicting three gashes, severing his jugular vein, but his injuries, although serious, are not likely to be fatal. There were faint signs of life in the boy for two hours after the deed was committed, but all efforts to revive the lad proved futile. The deed was premeditated, as shown by the fact that Smith insured on the boy accompanying him to feed the pigs, which were situated about four hundred yards from the house, and also that he carried the razor with him. No motive can be assigned for the dreadful deed. The man is thought to be insane, although he attempted suicide in a similar manner a year ago near Guelph, Ont. He came West from Ontario last fall.

FIRST STREET
EDMONTON
PHOTOGRAPHER

The Day in Strathcona

The Rev. H. E. Gordon left yesterday for Red Deer, where the annual conference is being held.

The regular meeting of the city council will be held this evening at the city hall. An unusual amount of business will come up tonight as the council did not meet last week.

The recruiting officers of the Alberta Mounted Rifles are busy enlisting those who will attend the annual training camp which is to be held early in June.

The firms, A. J. McDonald and P. Burns are exchanging places of business. This arrangement will probably hold for two years, when the P. Burns company will probably build on their present site.

At the agricultural grounds at 6477 tonight the second game of the city league baseball series will be played. The teams are the Whirlwind vs. Collegiate. Batteries, Parsons and Richards for Whirlwind; for Collegiate, Clarke, Kent and Scarborough.

Messrs. A. E. Ottewill and E. T. Mitchell, who have been attending university here the last year leave tonight, via G. T. E., for the construction camp further west. They will manage N. M. C. A. reading tents in these camps.

Work is being commenced on the excavation for Dr. Tury's house on the university grounds. This is to be a splendid structure and is so situated that it commands an excellent view both up and down the river. The work of the dormitory is being held in some way on account of the lack of stone, but good progress is being made on the brick work in the interior.

All kinds of athletic sports are thriving in the city. The tennis courts are very much in demand, all the courts being in use daily. The baseball diamond has been skinned and rolled and is now in excellent shape. Games in the city league fall on Tuesdays and Fridays. The lacrosse boys are practicing steadily and a game is being arranged with the Edmonton team. The city is most fortunate in having so many facilities for all sports so near at hand.

MRS. ORD MARSHALL IS IN EDMONTON

Secretary of League of Empire Will Confer With Government on Immigration of Boys

Mrs. Ord Marshall, honorary secretary of the League of the Empire, and representative of the League in Canada is at the Alberta Hotel. Mrs. Marshall is to hold a meeting here with interested men in connection with the immigration of boys of the middle class from the British Isles. The subject will be discussed thoroughly and some decision arrived at in the matter of supplying information to those boys desirous of making a new home in Western Canada. It is very desirable that such boys should have complete information of the country they are coming to and its condition, so that they might be better adapted to start their careers in the new land.

Mrs. Marshall is very enthusiastic over the great work which is being accomplished by the League of the Empire throughout all His Majesty's dominions. The League of the Empire was founded in 1901 in London and since then its membership has grown in a marvelous way, till at the present time they have branches in every corner of the Empire. The practical work of the League has been to promote co-operation between the different countries and colonies of the Empire, mainly in affairs connected with education, and to afford full and correct information regarding them, so that the duties of citizenship may be better understood and appreciated, and personal and active interest inspired in the great problems connected with the Empire's conditions and progress.

MAYORS TO SEE PREMIER

A delegation composed of the Mayors of Edmonton and Strathcona and possibly some of the members of the Board of Trade, will interview the Government on Thursday morning in regard to the grant of \$75,000 toward the building of the high level bridge. The C. P. R. refuses to go ahead with the work until this grant is assured, and if it is left over until the special session of the house meets, it means that work on the bridge cannot be started this year.

RITCHIE.—At the Barracks, Maple Creek, on May 20th, to Inspector and Mrs. Ritchie, a daughter.

ALD. TWIGG'S EYES OPENED

(Continued from Page One.)

Of people from their own district to whom they could write for information, and would also be made to feel that they would not be going altogether among strangers. In this way, also, these associations which at present serve only to preserve the home sentiment of their members would make useful links between Canada and the Mother Land.

During the morning the visitors were shown around the city by President McGeorge of the Board of Trade. At noon Ald. Twigg was the guest of the Canadian Club.

KILLED IN ROCK SLIDE

Nelson, B.C., May 31.—John McKittrick was killed in the Motherode Mine at Danwood camp near Phoenix by being caught in a rock slide. He was quickly dug out but was dead when discovered. He came from Indiana and was a new arrival in camp.

You've not seen the best \$4.00 Shoe in the city, until you've seen Kelly & Moore's.
